DETAILED ACTION

The amendment filed February 25, 2005 have been received and entered into the application.

Action Summary

The rejection of claims 12-32 under 35 U.S.C. 103(a) is being maintained for the reasons stated in the previous office action.

Response to Arguments

Applicants' arguments filed February 25, 2005 have been fully considered but they are not persuasive. Applicants argue that instant claims no longer embrace the prevention of sunburn and are not obvious over the cited combination of references and there is nothing in Plaschke or Hegenauer or in their combination that teaches or suggests the instantly claimed method of alleviating sunburn. This is not persuasive because the words of a claim must be given their "plain meaning" unless they are defined in the specification, the term "alleviate" is defined as "to reduce or decrease" (see Webster Dictionary, 1988, page 36), in this case the teaching of preventing sunburn of prior art encompasses decreasing or reducing a chance of having a sunburn

Art Unit: 1617

by the prevention taught by the prior art. Thus, the claims fail to patentably distinguish over the state of the art as represented by the cited references.

It is suggested that Applicants submit a declaration to clearly establish a surprising and unexpected result using Applicants' teaching.

In view of the above Office Action of 8/24/2004 is deemed proper and repeated with full force to obviate applicants' claims.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

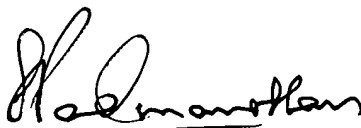

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
